That would work for me, waiting until you hear back from Calbag.

Is there work going on at the site this week? I may try to run up and check out the settling ponds investigation work?

Thanks, Mike

Mike C.

CFAC is working on the topic with Calbag. As it stands Calbag is under contract with CFAC to manage the concrete on the project. To that point we have not yet heard back from Calbag, therefore we are not in a position to add anything of substance should we have a call.

Can we defer this call to the week of November 27<sup>th</sup>?

John

Mike,

After 230 MT is better for me.

Is this ok with everyone else?
